| <b>DUAL SECTION MPP CAPACITORS</b> | <b>AL. CAN ENCAPSULATION</b>   |
| <b>MPP-SH MOTOR RUN CAPACITORS</b> | <b>DAT SERIES / DAW SERIES</b> |

DAT/ DAW series are dual MPP-SH motor run capacitors encapsulated in cylindrical aluminium can construction. DAT series are with terminal lead out and is meant for application in air conditioners. DAW series are provided with flexible multistrand copper wire for lead out application. These capacitors integrate dual capacitor elements wound around a single core with one common terminal.

### **Constructional Features**

|             |   |
|-------------|---|
| Casing      | : Cylindrical Aluminium can construction  |
| Dielectric  | : Polypropylene   |
| Top sealing | : Terminal board  |
| Lead out    | : 3 tin plated steel terminal for DAT series/<br>3 set of flexible multistrand copper wire for DAW series |

### **Salient Features**

- i) Self healing properties
- ii) High insulation resistance
- iii) Low dissipation factor
- iv) MPP-SH film of reputed imported make
- v) Capacitor elements wound using fully automatic microprocessor controlled winding machine imported from Switzerland.

### **Technical Specifications**

|                             |   |
|-----------------------------|---|
| Capacitance range           | : $25\mu\text{F}+4\mu\text{F}$ to $60\mu\text{F}+10\mu\text{F}$ |
| Rated capacitance tolerance | : $\pm 5\%$   |
| Rated voltage               | : 440Vac  |
| Rated frequency             | : 50/60Hz   |
| Temperature category        | : $-25^{\circ}\text{C}$ to $+85^{\circ}\text{C}$                |
| Reference Standard          | : IS 2993 / IEC 252   |

### **Terminal Marking**

Three output terminals are marked H, F and C. 'C' is the common terminal for both capacitors. Higher capacitance value meant for compressor is terminated at 'H' and lower capacitance value meant for fan is terminated at 'F'.

Eg: For  $50\mu\text{F}+6\mu\text{F}$  capacitor  
 50 $\mu\text{F}$  – Between 'H' and 'C' terminal  
 6 $\mu\text{F}$  – Between 'F' and 'C' terminal
